REAL-WORLD RULES

Product exposure must be product-specific.

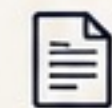

Unsupported causation chains are excluded.

Expert opinions must satisfy admissibility standards.

Contradictions must be disclosed and traceable.

Procedural posture governs analytical scope.

GOVERNANCE PRINCIPLES

- Every step is rule-governed.
- Every output is traceable.
- Every deficiency is surfaced.
- Every decision is replayable.
- Every record is defensible.

FAILURE / CONTRADICTION ALERTS

- CONTRADICTION DETECTED
- MISSING AUTHORITY
- ADMISSIBILITY FAILURE
- CHAIN OF CUSTODY BREAK
- PROCEDURAL POSTURE MISMATCH
- DATA GAP / SOURCE CONFLICT
